

NEOCOAT 5100 LIQUID

NEOCOAT 5100 LIQUID is an acrylic Copolymer emulsion developed for the mineral coating of paper board

HIGHLIGHTS

- It has superior wet and dry pick resistance, better heat and Mechanical stability also reduced dusting on off set presses
- NEOCOAT 5100 LIQUID can be used as such or along with
- Oxidised starch or casein as natural COATers in the coating formulations.
- It is compatible with china clay, calcium Carbonate, whiting, titanium dioxide And most other standard pigments.
- Under normal super calendaring condition it gives ver good gloss and ensures good release from the calendar rolls.
- It is generally a low foaming emulsion however, little quantity(0.05%) defoamer can be added to minimize foam.
