

POLYESTER - WOVEN / YARN

3.0 FINISHING

3.1 POLYMERIC SOFTENERS

DRAPEFIL LIQUID

A novel product for anti-pilling and anti-slippage properties especially on Polyester / Cellulose spun fabric

DRAPESOF PIL LIQUID

A novel product for good drape, anti-pilling and antislippage property, especially on Polyester / Cellulose spun fabric with papery feel

DRYBOUNCE C LIQUID

A novel polymeric finishing agent for good bounciness and dry softness

DRYFEEL CRB LIQUID

A polymeric finishing agent for good dry feel and bounciness

HYDROSTAT BM LIQUID

Polymeric agent for terry towel, bath mats, knits forming a coating on the fibre. The coating technology separates adjacent piles making them lively, suspends fluff and prevents sticking in cellulose

3.2 SILICONE SOFTENERS

ROSIL AD LIQUID

Economical amino silicone microemulsion

ROSIL ASRW LIQUID

A highly durable antistatic finish for application to 100% Polyester, Polyamide and Wool fibres, as well as blends of synthetic and natural fibres

ROSIL MES LIQUID

Excellent polymeric softener with supersoft and silky feel on cotton knits, synthetic fabrics and their blends

ROSIL EPX LIQUID

Excellent polymeric softener with supersoft and silky feel on cotton especially knits and dry feel on polyester

ULTIMA MASKA LIQUID

A premium permanent softener for superior sheen, excellent drape and buttery soft feel

MARVEL LUX LIQUID

Unique microsilicone softener for inner softness with excellent bounce

DREAMFEEL ULTIMA LIQUID

Unique microsilicone softener with high surface smoothness, body break and drape

SILSOFT PES LIQUID

Economical amino silicone microemulsion

SILSOFT RMG LIQUID

Economical amino silicone microemulsion

MARVEL GLIDE LIQUID

An innovative concentrated microsilicone softener for providing excellent bounciness and inner softness

MARVEL SUV LIQUID

An innovative microsilicone softener for extraordinary inner softness, drape and bounciness

DREAMFEEL AAA LIQUID

An innovative microsilicone softener for extraordinary inner softness, drape and lustre

DREAMFEEL CORE LIQUID

Unique microsilicone softener for inner softness with excellent bounce

DREAMFEEL DBD LIQUID

Macro emulsion, specially for synthetics and blended fabric for excellent drape, bounce and inner softness

DREAMFEEL GRAND LIQUID

Unique microsilicone softener for excellent surface softness with good inner and bounciness

HISOF AM-70 LIQUID

Economical amino silicone microemulsion

POLYESTER - WOVEN / YARN

3.0 FINISHING

HISOF SUPPLE LIQUID

A microemulsion of an aminofunctional polysiloxane produces ultra softening effect

REGINA LIQUID / REGINA PRIME LIQUID

Advanced modified silicone softener for excellent softness on polyester and polyester rich blends

3.3 CATIONIC SOFTENERS

LIQUISOFT EASY CONC PASTE

A unique cold water soluble 100% cationic softener, imparting high surface smoothness along with good durability and hydrophilicity

3.3 CATIONIC SOFTENERS

LUBRIL HDR PASTE

A special finish when applied in the final rinse bath improves the running properties of synthetic fibres during post dyeing operations like coning, winding etc., with oligomer binding property

ZYLON PW LIQUID

A new wash fast softener for synthetic fibre material

3.4 ANTISTATIC SOFTENER

HYDROSTAT LIQUID

A soil release finish for Polyester and Polyester blended fabric with antistatic property, dissipates static charge & prevents ugly shocks on the finishing trolleys

ROSIL ASRW LIQUID

A highly durable antistatic finish for application to 100% Polyester, Polyamide and Wool fibres, as well as blends of synthetic and natural fibres

3.5 REACTIVE SOFTENER

MAGSOF REACTI PASTE

A reactive softener imparting good softness with bulk producing a feather touch like feel on the fabric

3.6 POLYURETHANE SOFTENERS

ULTRABOUNCE NEW LIQUID

A high molecular weight polymer with a reactive group. Bounce, softness and surface smoothness are the highlights

ULTRABOUNCE PUR LIQUID

Polyurethane based high molecular weight polymer for excellent bounciness and resiliency

3.7 SPECIAL AIDS

ZYLON UD SPL LIQUID

A high molecular weight polymeric softener with colour deepening property

ZYLUBE CM LIQUID

An economical lubricant to reduce fibre to fibre friction with softening property especially suitable for synthetic lightweight fabric
